

When your “usual” sourcing strategies haven’t found you the right candidate...

Right Executive Search WILL ... through “CONNECTION SOURCING.”

You know this already: The best candidates aren’t usually watching the job boards where you post your openings. Even when great candidates are actively seeking new opportunities, they may miss your job posting or contact request in this congested online environment. Additionally, perhaps the job is admittedly hard to fill, with very specific hard and/or soft skill requirements. For certain roles, your internal talent acquisition team has thus far been unsuccessful in finding the great-fit candidates with all the hard and soft skill sets you need.

So how can you identify & recruit a new pool of strong-fit applicants?

This is where Right Executive Search can add value through **CONNECTION SOURCING!** RES has an extensive personal and professional network – accessing passive candidates that you wouldn’t find on your own – and will help deliver the perfect match for your position and your organization.

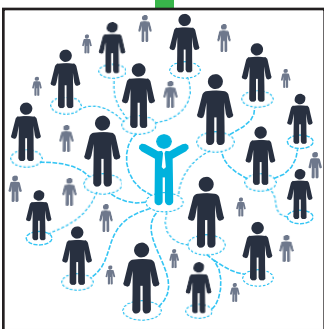

We put our relationships & resources to work for you

Throughout our careers, we have devoted our time, efforts, and energy to actively connect with financial services industry professionals. The RES Team is constantly networking and proactively building relationships with strong candidates and their referrals. Because this is our core competency, quite simply, we have access to candidates that you may not have the opportunity to reach.

How we’ve built our extraordinary network:

- Through successful placements, RES has earned its position in the **Top 60 Financial Services Search Firms** ranked by Hunt Scanlon Media, the most widely referenced, single source for information in the human capital sector. We’ve consistently made the list each year from 2020, when this honors list began, through 2024.
- We have cultivated strong networks within the financial services industry through our team’s extensive and successful careers at both large organizations and smaller, fast-growing firms within the industry.
- We ACTIVELY “HUNT” for candidates by tenaciously reaching out to professionals at our clients’ competitors/target companies and seek out referrals from our industry contacts. Successful hires also contribute quality referrals.
- RES is an active owner-member of NPA, a renowned strategic recruiting network comprised of more than 500 firms on six continents -- multiple firms working together. Our collaboration means you leverage the strength of the entire global recruiting network with access to even more passive candidates.
- We have affiliations and membership in more than 300 networking groups and proactively connect with members in person, over the phone, and online. Our president, Elisa Sheftic, has more than 30,000 connections on LinkedIn (and growing).
- RES has earned an excellent reputation and the testimonials to prove it.
